Declaration of Conformity

EU Regulation EC 1907/2006 (REACH) as amended including:

- Annex I of the Regulation (EC) No 850/2004 of the European Parliament and of the Council on Persistent Organic Pollutants (POP). PFOS is regulated as a POP in the EU
- Annex XIV (Substances of Very High Concern)
- Annex XVII (Restricted Substance List)

According to the Reach Regulation all our products are defined as “articles”, because their function is mainly defined by size, shape or design and not by chemical composition.

Articles should be registered if, under normal or reasonably predictable conditions of use, substances can be released that fall under the current SVHC candidate list (published by the European Chemicals Agency ECHA).

This is not the case for following asphericon products:

- StockOptics a|High-NA
- StockOptics a|Low-NA
- StockOptics a|UV-grade fused silica
- StockOptics a|Axicons
- StockOptics a|Acyinders
- StockOptics a|MountedAspheres
- StockOptics a|MountedAxicons
- StockOptics a|MountedAcyinders

We confirm that the article complies with current EU Regulation EC 1907/2006 (REACH) and its appendices of amendment. If there are new findings regarding contents or changes in the legal situation that require an amendment to this declaration, you will be informed immediately in an appropriate form.

Jena, 03.01.2022 / Sven Kiontke
